The Westborough

Designed by Frank Betz Associates, the Westborough provides spacious and elegant yet functional living space. Two-story vaulted ceilings in the family room, foyer, and keeping room contribute to the spaciousness of the first floor. The first floor master bedroom suite offers a perfect retreat with a tray ceiling, a spacious “His and Hers” walk-in closet, and a generously appointed bathroom including separate vanities, shower, and garden tub. The additional first floor bedroom with adjacent full bathroom serves as an ideal mother-in-law suite, nursery, or guest room.

The functionality of the Westborough is exemplified by the gourmet kitchen with its ample cabinets and countertops, convenient center island, and large walk-in pantry which create a work area that any chef would appreciate. Guests and family will enjoy relaxing in either the adjacent keeping room or family room both before and after that perfect meal.

The second floor features a loft with overlook, bonus room, and two bedrooms each with private, full bathrooms. The bonus room has been designed with its own private, full bathroom offering over 700 square feet of living space. Other amenities include a walk-out basement, three car carriage garage, and covered front porch.
